

Family Service Social Narrative

We are going to have a special day at church where the parents and kids worship together. It is called Family Service.

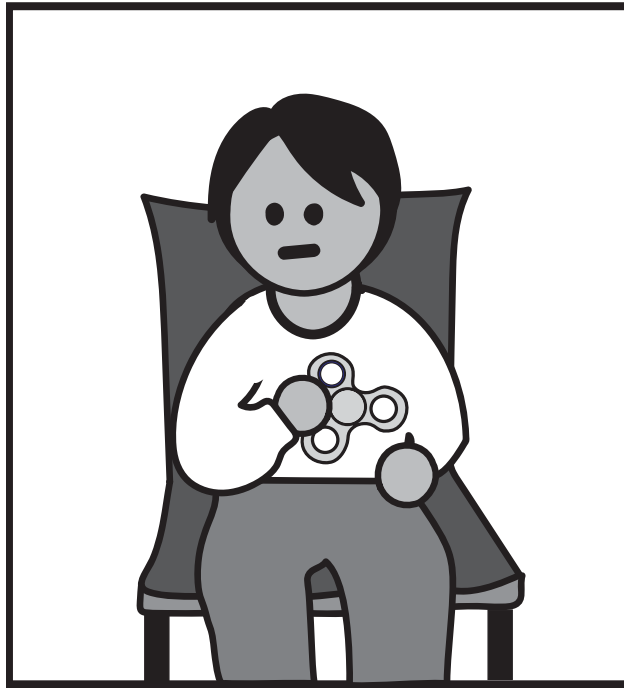

I am going to sit in the big church room with my family.

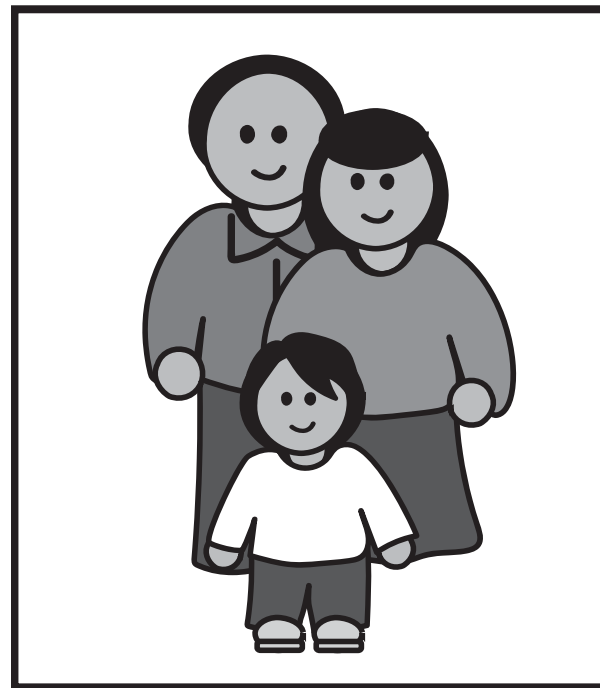

When service starts, there will be music. People will sing along. The music will be loud. If I need to, I can ask for a break or some headphones.

Family Service Social Narrative

When the pastor talks, the people will sit and listen. If I need to move my body, I can hold a fidget or swing my feet.

When church is over, I will leave with my family.
