

New Classroom at Church Social Narrative

I will be going to a new classroom at my church.

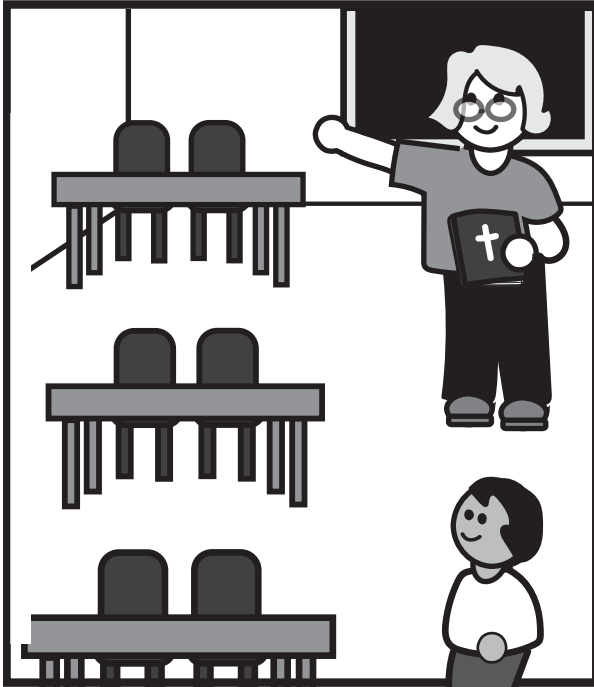

The new classroom may have other kids and a teacher in it. I may know some of the people, and I might meet some new people too.

This classroom may look different from my old classroom.

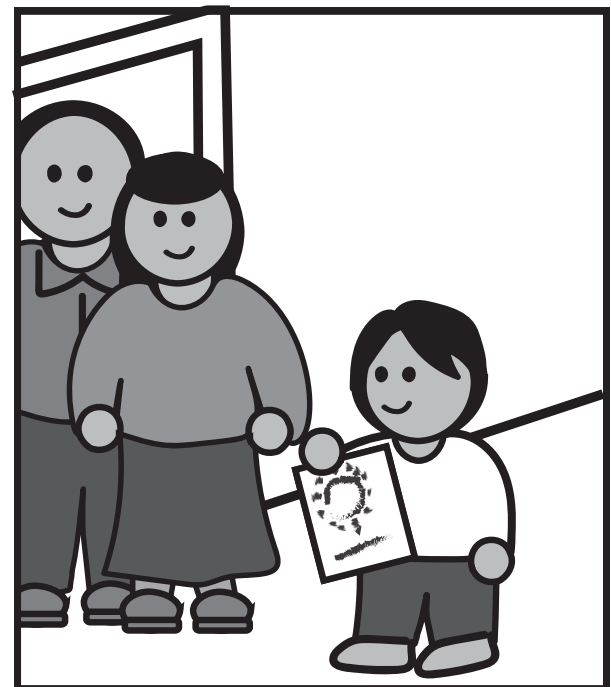

New Classroom at Church Social Narrative

My teacher can help me know where to go.

If I start to have big feelings, I can ask for a fidget or to take a break.

When church is over, my family will come pick me up.
